Summary

I am highly energetic and willing to take on any task given to me. I can handle multiple responsibilities and tasks while maintaining a polite and friendly atmosphere. I love working with computers and learning new software. I have competed in Master the Mainframe for the last 2 years, and I have successfully completed part 2 every time. I am also the head coach for a FIRST Lego League team at Bushland Elementary School in Bushland, TX. I am eager to learn new things, and I am looking forward to future challenges.

Highlights

- Organized, Reliable, Punctual
- Hard Working
- Effective at Time Management
- Multi-Coding Language Experience
- Excellent Multi-Tasker

Extra Curriculum

- Master the Mainframe Part 2 Finisher
- ACM Member
- FIRST Lego League Head Coach

| - CSS | - PHP | |

Experience

- **Supplemental Instructor**
August 2018 to Present
West Texas A&M University – Canyon, TX
I attend the lectures for CS3305, Data Structures and Analysis in order to be kept up-to-date on what the students are learning. I tutor the students in the course on the course material, such as: basic data structures, recursion, time and space complexity, etc. I host weekly sessions for the entire class so that I may assist many students at a time.
- **Intern – Systems Engineer**
May 2018 to August 2018
Visa, Inc. - Highlands Ranch, CO
I worked on Visa's mainframes. My main task throughout the summer internship was to standardize the layout of the different panels across Visa's 50+ mainframes. I was also part of the testing phase of a HFS to zFS migration project.

Education

B.S., Computer Science Software Engineering, May 2021 (Anticipated)

GPA: 3.389 (4.0 scale)

West Texas A&M University – Canyon, TX
